ORDER:

In the letters read above, the Engineer-in-Chief (R&B) Roads, Hyd., has stated that the road from Narasapurapupeta – Katravulapalli road from Km 13/930 to 29/000 is an important M.D.R. road in E.G. District, connecting number of villages and industrial areas and reached to ADB road leading to NH5 Road. The road is recently taken up with BT, but increase of traffic, the single lane road is not sufficient to industrial traffic. The road is recently sanctioned for widening from KM 13/930 to 20/200 (i.e. 5.400 Km) and the work is in progress. The remaining balance stretch of the road is single lane road with width of the roade 3.66 m and now proposed to widen the road to double lane. The crossed culverts are also proposed to widen in the balance stretch of the road. In Nallamilli and Singampalli Village Limits, drains are also prepared.

2. He has also stated that the reach of Narsapurapupeta to Katravulapalli road from Km 11/000 to 12/870 is passing through Biccavole village which is ripe for renewal. Hence this reach alone is considered for strengthening works. However, the reach passing through Gollala Mamidada village is not ripe for renewal and hence this reach is not considered for any improvement at present. The reach passing through Biccavole village i.e., from Km 11/000 to 12/870 of Narasapurapupeta- Katravulapalli is getting damaged frequently due to stagnation of water. Hence it is proposed to lay Cement Concrete (CC) pavement in this reach which is within the village limits, as a permanent measure to safeguard the road against recurring damages due to stagnation of water.
